VISUAL CODE/ DRAWN LINES COLLECTIONS

EN

Visual Code™ Collection and Drawn Lines™ are inspired by the symbiotic relationship of hi-tech and hi-touch. Images of glitch graphics, technicolor circuitry and prismatic geometry are married with simple textures that recall plain woven textiles. Harmonising ideas about craft and industry in hard and soft materials that fit together seamlessly. Now that's a lot to be positive about.

FR

Les collections Visual Code™ et Drawn Lines™ s'inspirent de la relation symbiotique entre high-tech et high-touch. Des bugs numériques graphiques, des circuits Technicolor et une géométrie prismatique sont associées à des textures simples qui rappellent des textiles tissés. Associez artisanat et industrie grâce à nos dernières collections de sols souples et durs.

ES

La colección Visual Code™ y Drawn Lines™ están inspiradas en la relación simbiótica de la alta tecnología y el alto grado de toque humano. Las imágenes de gráficos defectuosos, circuitos technicolor y geometría prismática se conjugan con texturas simples que recuerdan textiles tejidos planos. Armonizan ideas sobre la artesanía y la industria con materiales duros y blandos que encajan a la perfección. Así pues, hay mucho por lo que ser positivo.

DE

Visual Code™ und Drawn Lines™ erzählen von der symbiotischen Beziehung von Hi-Tech und Hi-Touch. Elemente aus der digitalen Welt und prismatische Geometrie stehen in Verbindung mit einfachen Texturen, die an Webstoffe erinnern - Ideen aus Handwerk und Industrie übersetzt in harte und weiche Materialien, die perfekt miteinander harmonieren.

NL

De Visual Code™-collectie en Drawn Lines™ zijn geïnspireerd op de symbiotische verhouding van hightech en hightouch. Afbeeldingen van glitch graphics, technicolour circuit en prismatische geometrie worden verenigd met eenvoudige texturen die doen denken aan geweven stoffen. Geharmoniseerde ideeën over ambacht en industrie in harde en zachte materialen die naadloos bij elkaar passen. Positiviteit alom dus.
