# Brushed Lines

In industrial spaces we find traces of the natural world. Worn edges. Organic forms. Dusty colours.

Brushed Lines has a diffused linear texture. It evokes the familiar qualities of hard surfaces, with a light-capturing quality that sparkles on the floor. Its subtle design features solid colours ranging from warm and cool neutrals to pops of earthy, mineral-like tones. Brushed Lines delivers modern refinement inspired by raw and natural motifs.

Brushed Lines comes with SoundChoice™ backing as standard, formulated for superior noise reduction, offering you best-in-class performance for reduced impact sound and floor to floor sound transmission.

Mix and match Brushed Lines with other Interface LVT and carpet tiles for endless design possibilities.

Interface LVT allows you to move from surface to surface without the need for transition strips.

Brushed Lines LVT contains 39% recycle content, and is carbon neutral with our **Carbon Neutral Floors™** programme.

# Drawn Lines

Fractals are repeating patterns at different scales and nature's favourite pattern-making method. Similarly, Drawn Lines LVT layers filament-fine marks in varying weights and rhythms, creating a never-ending geometric pattern and a soft pooling of light and dark areas with no visible repeats. Drawn Lines is available in a palette of 10 colours, from warm to cool, with a thread of metallic adding shimmer and depth. Combine Drawn Lines side by side with Interface carpet tiles for an integrated flooring system of hard and soft without the need for transition strips.

# Iridescence

Iridescence is inspired by the use of mineral and organic pigments that layer to create diverse hues and abstract painted surfaces. Colours merge with one another in a soft smoky transition that brings a comforting tranquillity to the interior space. The palette encompasses a multitude of colours that excite and inspire.

Smoky greys provide a neutral base with a soft pattern visible. Some colourways combine tones of greys, blush pinks and powdery blues, these colours provide a subtle and elegant floor installation. Earthy and mineral colours of terracotta and clay ground the collection, versus more saturated shades of yellow and teal bringing the range to life and providing an atmospheric edge.

# Level Set

The Level Set Collection is Interface's first collection of resilient flooring. Interface LVT is made to combine with our carpet tile. It comes in the familiar 25 x 100 cm Skinny Plank and 50 x 50 cm Square formats and is thick enough to install next to carpet tile without connectors or bridges. Our Ceramor™ UV stabilised ceramic bead top layer delivers great longevity and the Sound Choice™ backing layer dampens impact sound, making Level Set a quiet revolution.

Level Set features 4 types of patterns in a total of 36 colourways: Natural and Textured Woodgrains in the 25 x 100 cm Skinny Planks format, and Stones and Pattern in the 50 x 50 cm square format. The look and feel of the wood patterns ranges from glossy to distressed, while the stone patterns fill the spectrum from subdued to outspoken. Hard and soft tiles come together to create beautiful design options, creating a new world of integrated flooring choices that make contemporary interiors come to life.

# Look Both Ways

Monolithic textures denoting gravity and substance live with light-hearted colour and confetti. Unexpected combinations of materials inspire creative outcomes. Celebrate the mix!

Look Both Ways is a collection of carpet tile and LVT patterns combining Zen-like purity with playfulness. Marrying purpose and function with your intention, these styles create landscapes that perform and delight in infinite ways.

Walk of Life, the bedrock of the LVT collection, is gritty, not polished. Sharing the same urban grey palette, Walk the Aisle sparkles with a luminescent fleck that energizes the surface. Walk About appears carved in ways that conjure pattern-love from the 1920s, 1980s, and today. And finally Walk on By is a vision of pure joy in brights & neutrals. Step, walk or run, but definitely look both ways for design inspiration.

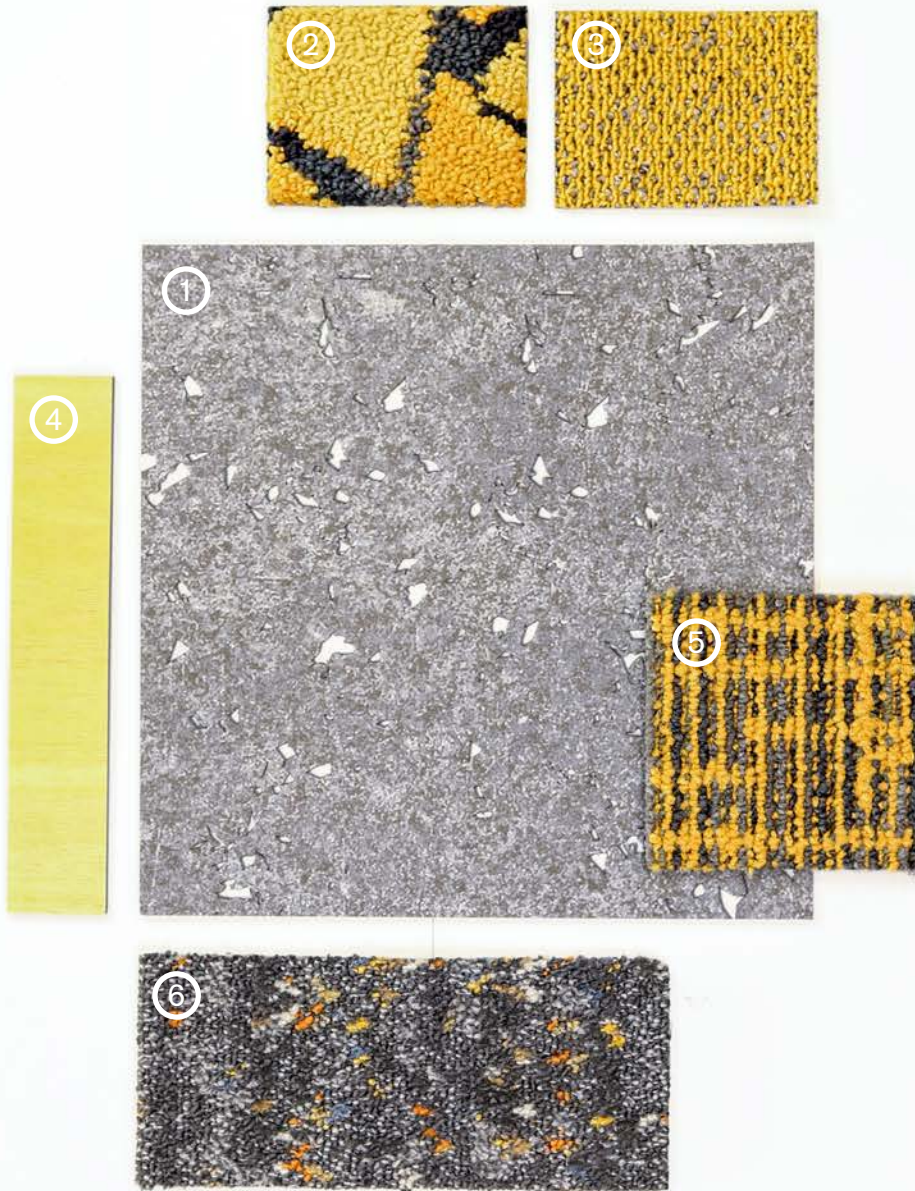

**1.** Walk About - Pumice **2.** Studio Set - Mandarin **3.** Stone Course - Orange/Stone **4.** Rue - Orange  
**5.** Composure - Amber **6.** HN830 - Clementine

# Native Fabric

As an essential texture in modern interiors, fine strands of native grasses are woven together to make grass cloth and other textiles, reflecting the delicate variations of the natural fibre, and adding contrast to the finishes that define these spaces.

Native Fabric responds to this need for the warmth and grace of natural variation with a perfectly minimal palette of eight soft shades with an unexpected hint of metallic threading throughout. Combine Native Fabric side by side with Interface carpet tiles for an integrated flooring system of hard and soft without the need for transition strips.

**1.** Native Fabric - Linen    **2.** Polichrome Stipple - Hemp    **3.** Touch & Tones 103 - Linen    **4.** Touch & Tones 101 - Linen

**5.** On Line - Biscuit **6.** UR102 - Straw

# Studio Set

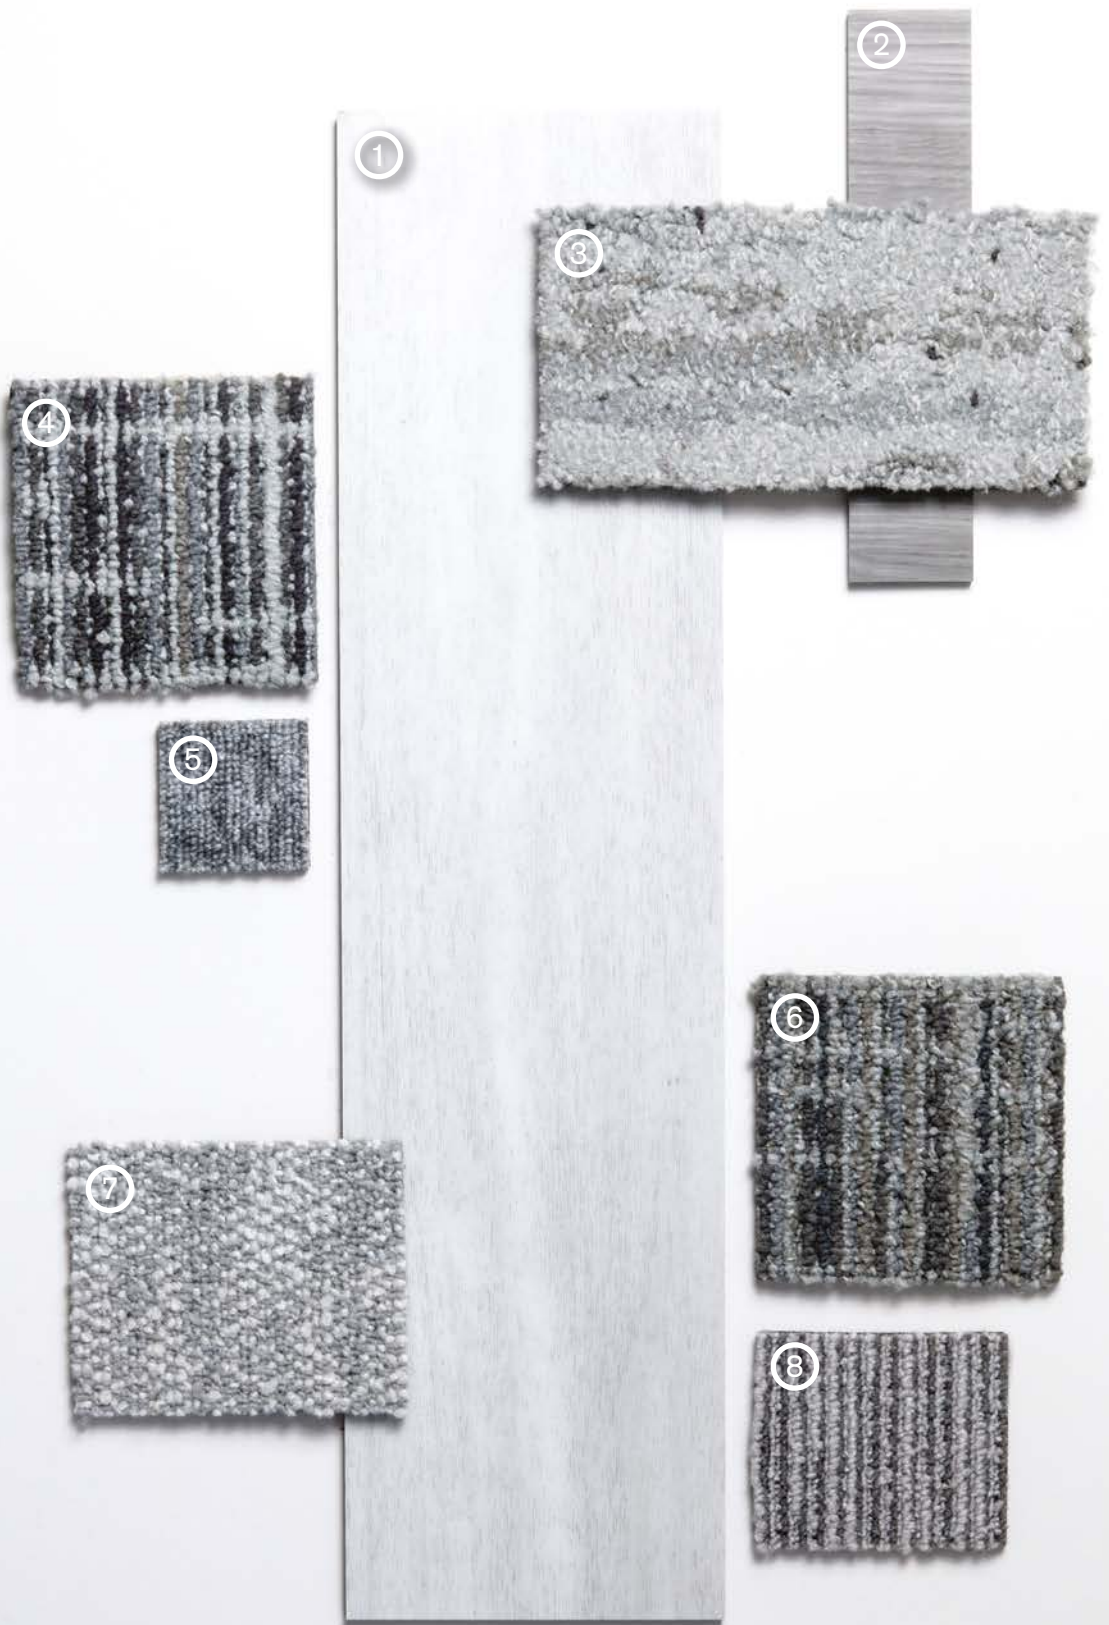

Studio Set is a new addition to our LVT range of resilient flooring, designed to combine with our modular carpet. It's a collection that's all about colour. You have 12 shades to choose from – ranging from intense, vibrant brights to soft, versatile neutral tones. A very subtle wood-grain pattern gives depth, but it's the colours everyone will notice. Use them in combination to create different compositions. Or make one bold choice across an entire area.

Like our other LVT collections, Studio Set is the perfect fit for our modular carpet. Both hard and soft tiles are fully compatible in size and height. So they can sit side by side with no need for transition strips, connectors or bridges. Just beautiful, easy-care flooring from edge to edge.

To maximise the design possibilities, Studio Set is available in the familiar 100cm x 25cm Skinny Plank format. We also make it to last, with our Ceramor™ UV stabilised ceramic bead top layer. Plus, the Sound Choice™ backing layer dampens impact sound, so your space can be calm as well as colourful.
