FrameFour
Desks, Benches and
Meeting Tables

Work is a series of transitions, moving from individual to teamwork, and from collaborative to focus work throughout the day. FrameFour® makes these transitions for the users seamless by providing an ecosystem of spaces that support resident, nomadic and meeting work styles throughout the office environment.

Applications

Desks

FrameFour desks support users during long periods of focused work and can be customized to adapt to workers' needs.

Benches

FrameFour benches create a destination for mobile workers to connect with others or find an appropriate space for focused work. Tools such as privacy screens, lighting, worktools and access to power are available at the worksurface on an integrated rail.

Meeting Tables

FrameFour meeting tables support collaboration for small and large groups. The conference tables are available in different shapes and sizes and offer convenient power access for creative and purposeful collaborations.

WorkBench

Designed with a footrest, integrated power and supportive of screens, the FrameFour WorkBench offers workers choice and control over their posture and level of privacy. It provides nomadic workers looking to switch up their day with a change of scenery without leaving their team behind.

Features

FrameFour provides a consistent aesthetic throughout the workplace with its floating tops. In the new office landscape customization is key and FrameFour adapts to this need by enabling individual customization with the addition of monitor arms, lighting solutions, worktools and privacy screens.

Soft edge

significantly reduces unhealthy pressure on forearms and reduces shoulder and neck fatigue.

Integrated rail

supports worktools, monitor arms and lighting to expand the workspace, reduce clutter and increase productivity.

Power access

puts outlets within easy reach.

Sliding top

provides easy access to power.

Modesty panel

dials-up privacy with a modesty panel on the desk.

Screens

Easily connects to Steelcase's Divisio and Partito screens for more privacy.

Height adjustment

Desks

FrameFour desks are available with a fixed height of 740 mm. The height-adjustable version comes with an easy-to-use screw allowing height adjustments from 680 mm to 760 mm.

Bench and Conference Tables

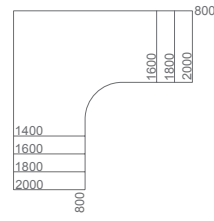

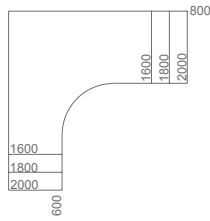

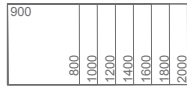

FrameFour benches and conference tables are available with a fixed height of 740 mm.

Surface materials

- Decor: all standards decors available
