## Creating Spaces

Universal is a complete storage family consisting of medium- to high-capacity cupboards made from sustainable materials. The design blends with an extensive range of furniture, making it a comprehensive and flexible element to structure and optimize spaces to support both focus work and collaboration.

Out in the open, people are desperately seeking ways to control their privacy. Universal cupboards in different heights help set boundaries and define space, providing people with varying levels of acoustic and visual privacy.

### Designed for Individuals

Individuals can keep items close at hand, giving users peace of mind that their things are secure and within reach, so they can focus on their work.

20-0145416

### Designed for Teams

Teams can leverage the multiple design options to collaborate, store shared project materials and display information, keeping groups organized and productive.
