# SISTEMA

## Infinite modularity

Collection of sofas designed by Lievore Altherr Molina, 2016

*"Vicarbe's quest for comfort brought us to create Sistema in 2016 - a modular sofa which fits very diverse environments, needs and situations."*

# Legs

Sistema Legs gives the possibility to choose between three different types of legs depending on the form: scissors, cylinder and flute - Offering great durability and adaptability to diverse environments. Available both in Smooth and Soft upholstery.

# Floor

The definitive approach to the aesthetics of a residential sofa. Perfect for an additional degree of elegance thanks to its fully upholstered modules. Available both in Smooth and Soft upholstery.

# Soft

A meeting point between rationalism and warmth. Sistema Soft emerges as an evolution of the System sofa, presenting a more comfortable interior, as well as a more wrinkled effect in its upholstery, one that is therefore more welcoming.

# Smooth

Great durability and adaptability to diverse environments. System, with its smooth upholstery, is a perfect choice for commercial spaces, offices, or airports. High traffic areas where privacy and dynamism sometimes become a sine qua non.

MULTIPLE COMBINATIONS

It is well known that flexibility is creatives' best friend. But it is also true that a simple process together with a selection of deeply thought components become very much appreciated ingredients in project development. For this reason, we have spent the last months rethinking one of Viccarbe's best-sellers and singular pieces: The Sistema sofa. The engineering and manufacturing process of Sistema has been highly optimized. *"Because we believe that the only constant is change and because there is still so much to be done. This is, and will continue to be, a living history."*

INFINITY CORNER

Back in 2006 we created Sistema, the modular sofa capable of meeting different requests and fitting into very diverse contexts and environments. We believe that simplicity combined with a careful selection of components or pre-configured elements help to gain agility during the management and development of projects. The Sistema corner makes the most of any space, ensuring comfort and allowing for infinite compositions.

FIXED SIDE TABLE AVAILABLE

Sistema Legs can include a fixed side table, designed by our creative team to promote new behaviours in hybrid spaces. Far from rigid workstations, the auxiliary table for Sistema allows users to connect and perform from more comfortable locations: from a quick coffee in the office, to taking notes in informal meetings, or supporting the laptop whilst teleworking.

# SISTEMA AREAS

DISCOVER ALL THE POSSIBILITIES

## RESIDENTIAL

The rationalist and contemporary nature of Sistema can fit in perfectly with the warm atmosphere of a home. Here, it's just a matter of choosing the right finishes.

## PUBLIC SPACES

Sistema gives us the possibility of incorporating backrests of different heights, or accessories such as armrests and auxiliary tables; perfect choices for use in transit areas such as airports, shopping centers, or hospitals.
