

GoBright Scheduling Systems

Steelcase

Steelcase and GoBright are partnering to help people work faster, better and stronger through applied office technology. The GoBright desk management solution features a booking software that allows people to easily book a desk and offers clear analytics to efficiently manage the workplace.

Agile Work

The rapid growth of activity-based and shared-space working concepts has paved the way for flexible desk use and created a need for digital space management. Agile working is now at the core of modern offices and GoBright Work is here to help:

ONLINE DESK SELECTION

Book a desk online or via the app, so you're sure to have a place to work.

ONE DESK, MULTIPLE USERS

Thanks to the advanced desk sharing tool, a desk can be occupied by several people in one day.

VISIBLE OCCUPATION

Easily check the status of a desk as you enter the office with the Mapping feature or the Connect and Glow devices.

CLEAR ANALYTICS

Manage your office space efficiently and empower facility managers to make data-driven decisions.

Optional Accessories

Connect Device

- Check-in/-out with NFC/RFID card or app
- Pre-set your personal sitting/standing height
- LED colours indicates occupancy status

Glow Light

- Light that indicates occupation status
- Place it on your monitor or partition wall
- LED light matches Connect colours

NFC Sticker

- Low cost, low effort
- Check-in with the GoBright app
- Occupation status visible on Mapping

Booking Process

1

When you enter the office, you can check the mobile app to see which desk is yours for the day. When you click on Find my Desk, the LED light of the GoBright Connect and Glow devices flash.

2

You can search, find and book a desk via the GoBright mobile app, the online portal or via Mapping in the desk booking system. Mapping is an interactive map of each floor at the office.

OR

Check-in at your desk instantly by scanning the built-in Connect device with your mobile phone or NFC card.

3

Finally, it's possible to make the real occupancy of a desk visible. The LED ring on the Connect device shows the status of a desk at a quick glance:

- Green** : the desk is free and bookable
- Red** : the desk is occupied and non-bookable
- Blue** : the desk is occupied and non-bookable and the person at the desk does not want to be disturbed

Availability and Manufacturing

GoBright is available in EMEA and manufactured in the Netherlands by GoBright.
