

Fully Integrate Your Workplace with GoBright and Microsoft

Experience the GoBright features from the tools you use every day: Microsoft Teams, Outlook, and PowerBI. With easy access from your desktop or Mobile App, and via Single-Sign-On-Authentication.

GoBright and Microsoft Teams

Give your employees the opportunity to organise and plan their workday directly from MS Teams.

- 👍 Book a desk, room, locker, or parking space within the GoBright Portal, while working in Microsoft Teams.
- 👍 Plan your personal, team, or recurring bookings.
- 👍 Access and modify existing bookings.
- 👍 No switching between different systems.
- 👍 Accessible from Desktop and Mobile App.
- 👍 Visible GoBright App icon in menu bar.

GoBright / AzureAD / Single-Sign-On

GoBright integrates with Azure AD, making it possible to manage and register users. Simply use one set of login credentials to access the GoBright Platform, across all devices, with single-sign-on (SSO). Even within the Microsoft tools such as Teams and Outlook.

- 👍 Minimise the risk of breaches.
- 👍 Reduce the number of credentials.

GoBright and Microsoft Outlook

The GoBright Platform synchronises with Outlook both ways. Any room activity such as bookings, check-ins and outs, room occupation detected by room sensors, changes in existing bookings, or meetings that are cut-short are synced across Mobile, Web, Teams, and the room itself.

GoBright Outlook Plugin

With the GoBright Outlook Plugin, the GoBright functionalities are transferred to your Outlook environment. One system, one action. Smart and simple.

-  GoBright icon in menu bar.
-  Find and book a room based on your preferences.
-  Invite colleagues, pre-register visitors, and arrange Catering & Services instantly.

GoBright and Microsoft PowerBI

Data from GoBright Analytics can be imported in the Microsoft PowerBI dashboards to create interactive reports and provide powerful insights.

-  Valuable input for decision making process.
-  Understand how resources are used.
-  Expand with data from other sources such as climate control, security, etc.

Want to stay informed?

In the GoBright newsletter we update you on the latest developments, system upgrades and, trends monthly.
